

# APPALLING!

11/11/21.....10/29/24

Sometime in the summer of 2019, I found a YouTube video that featured an interview as part of the “Muslim Caucus Education Collective's 2019 Conference.”

From behind only, we see a woman asking a question about FGM (Female Genital Mutilation) to a certain **Ilhan Omar.**

I don't know her at all, but my Browser does.

**serving as the U.S. representative for Minnesota's 5th congressional district.**

At one point, I hear Omar respond.....

«Your second question is.....**APPALLING**».

**APPALLING?**

Quick! My « Google Translate »! It offers me five (5) words:

« **Dreadful - Horrible - Shocking - Distressing - Revolting** ».

Everything is fine! It's clear! She's right! FGM is indeed something.....

« **Dreadful - Horrible - Shocking - Distressing - Revolting** ».

So I click again to listen to the rest which, I have no doubt, will certainly be..... relevant. Isn't it always **relevant, important, necessary and urgent** to denounce this horrible barbaric practice that FGM is, a practice that massacres the future of **several million little girls every year**..... yes **relevant, important, necessary and urgent**, especially when one considers the unacceptable **excess of tolerance** of the United Nations in this monstrous affair.

THE UNIVERSAL DECLARATION OF HUMAN RIGHTS AT 70 :  
STILL WORKING TO ENSURE FREEDOM, EQUALITY AND DIGNITY FOR ALL

### Article 1: We are all born free and equal

The 1948 Universal Declaration of Human Rights (UDHR) is – obviously – a

But then, a **huge surprise** awaits me. It would be more accurate to speak of a monumental and disconcerting disappointment. Unimaginable! But nevertheless true!

Indeed, for the one who just said **APPALLING**, which means .....

« Dreadful - Horrible - Shocking - Distressing - Revolting ».

..... it is not FGM. NO!

What is .....

« Dreadful - Horrible - Shocking - Distressing - Revolting ».

it is the fact that the Woman seen from behind only **dared..... dared to ask HER such an « Appalling question ».**

**SHE**, I learned much later, **Ilhan Abdullahi Omar**, is none other than the accomplished irreproachable politician, **great lover of the American** « noble values » concerning Women's Rights.

Anyway, I ended up thinking that my Google Translate should have suggested a sixth word:

« **DISGUSTING** »

The most unbearably revolting thing about the "**APPALLING**," of this sad political character that is Ilhan Omar, is that, some time after writing what I wrote, I found on Gravitas (**wionews.com**), in the course of a report by the very professional and committed journalist for the cause of Women, that is Palki Sharma Upadhyay, I found what I must call a completely "**APPALLING**," contradiction.

Indeed, on October 30, 2019, on the occasion of Turkey's recognition of the Armenian genocide, our **Great Vomiting Chief**, the one who, it goes without saying, is always **right**..... to dirty everything..... in «**Occident Bashing**» mode..... here **SHE** pompously declares..... incredible but nevertheless true.....

« **I believe accountability  
for Human rights violations** ».

You can't be more  
hypocritical than that!

**FULL STOP!**
