

WOMEN'S RIGHTS AND PEACE ARE INSEPARABLE!
ONLY WOMEN CAN SAVE HUMANITY

MUTILATED!

This script is not dedicated to the PM of Canada, Mr. Mark Carney,
who stated on June 6, 2025:

MUSLIM VALUES ARE CANADIAN VALUES.

UNICEF's latest report reveals *"alarming trends regarding the global prevalence of female genital mutilation (FGM). By 2024, more than 230 million girls and women will have undergone FGM, an increase of 15 percent since 2016. This rise of 30 million additional cases highlights the persistence of this harmful practice despite global efforts to eliminate it."*

30 million in 8 years is: **3,750,000 per year**

30 million in 8 years is: **10,273 per day**

30 million in 8 years is: **428.08 per hour**

30 million in 8 years is: **7.13 per minute**

30 million in 8 years is:

**ONE FEMALE GENITAL MUTILATION
EVERY 8.41 SECONDS**

WOMEN'S RIGHTS AND PEACE ARE INSEPARABLE!
ONLY WOMEN CAN SAVE HUMANITY!

Recently, in a YouTube Short, I found « 11 seconds ».....

MY BODY IS ONLY HERE TO CARRY BABIES.

«**Leyla** Hussein, a Somali and British activist, speaks about the urgent need to eradicate the abusive practice of FGM on the occasion of the International Day of Zero Tolerance.»

https://www.youtube.com/shorts/Oiu_fMaP-78

International "**Zero Tolerance**" Day is February 6th.

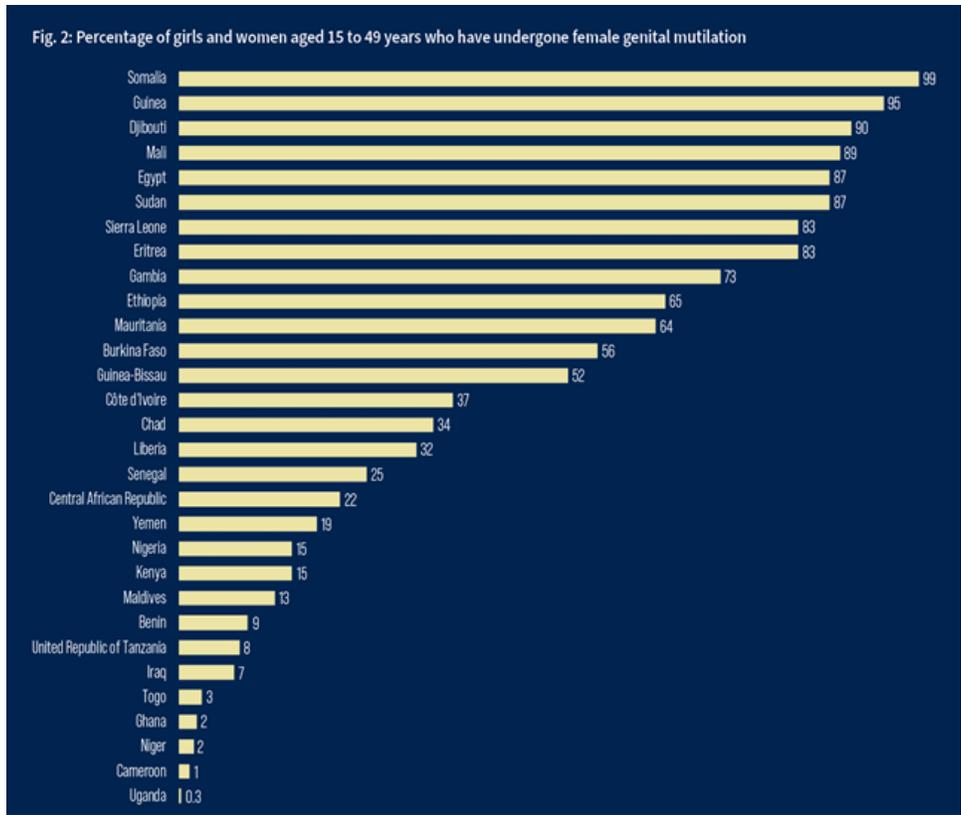

Leyla says: "**Every 11 seconds**, a girl is cut. The fact that we aren't outraged seems absolutely absurd to me. The world hasn't yet taken the issue of FGM seriously because it disproportionately affects Black children. You can't claim that every child matters and then choose which ones do. I

WAS CUT FOR MY FUTURE HUSBAND. So I haven't had sex outside of marriage. Therefore, I EXPERIENCE NO SEXUAL PLEASURE. MY BODY IS ONLY HERE TO CARRY CHILDREN. What I've been through is one of the worst forms of violence. I am absolutely convinced that FGM will disappear, but that will only be possible if we end all forms of human oppression."

**WOMEN'S RIGHTS AND PEACE ARE INSEPARABLE!
ONLY WOMEN CAN SAVE HUMANITY!**

3,750,000 little girls "cut" every year! 3,750,000 clitorises irreversibly mutilated! In great pain! Such barbarity, such contempt for Women, what do you call it? I call it **CIVILICIDE**. And **CIVILICIDE** means that **tens of millions of « Mahsa Amini like » are still in danger today, and not only in Iran, no, in danger everywhere in the cosmos of the so-called "Muslim Brotherhood."** And almost no one dares to speak about it, especially not at the United Nations where the question of ending FGM most often turns into a lamentable pious wish.

That said, I must also point out that UNICEF's 2024 report emphasizes that *"the current rate of reduction in FGM is **insufficient** to meet the UN Sustainable Development Goal of eliminating FGM by 2030."* This is happening in more than 30 African countries (listed below), with Somalia topping this appalling list, where **99%** of Somali Women undergo female genital mutilation.

<https://copfgm.org/fr/analyse-du-rapport-unicef-2024-nouvelles-donnees-sur-la-situation-mondiale-des-mgf/>

That being said, I am of the opinion that in the face of FGM, the UN must absolutely **wake up** and fully enforce its Charter (1948) of "Human Rights", in particular by pushing back the misogynistic "Muslim Brotherhood" type pressures coming from the Organization of Islamic Cooperation (OIC) which has 56 Member States.

For the entire Human Zoological Group, as for all UN Members, this is a matter of Human dignity, civic solidarity, and institutional coherence. The time has come to finally adopt a **ZERO TOLERANCE** approach. It's urgent, at the rate of seven excisions per minute. It's so urgent! Look! Look at what the UN's **irresponsible excess of tolerance** is leading to.

WOMEN'S RIGHTS AND PEACE ARE INSEPARABLE!
ONLY WOMEN CAN LEAD US TO PEACE!

When I first saw the picture of this little girl in a red dress --- from now on, I will call her **LAYLA RED** --- it completely "threw me to the ground", disgusted, shocked, revolted me.

Then, upon closer examination of the rather dark, basement-like setting in which **LAYLA RED** must surely have felt devastated and powerless, I suddenly surmised, without really knowing why, that this dark place might be located somewhere near Cheops. Why not!

A day or two later, with hindsight, I understood where that assumption had come from. There were two reasons. First, a few weeks earlier, I had learned this:

99,3 %

of Egyptian Women

report having been sexually assaulted.

Yasmine Mohammed

<https://www.youtube.com/watch?v=n2hAW7XE5Sc>

Secondly, there was this memory of my maternal grandfather who, because of my first name, kept repeating to me that "One day, you will go see Cheops, the great pyramid of Egypt." Which goes to show that even a grandfather can be wrong.

In any case, given the dark decor, I found myself in Egypt, a Muslim country where FGM is at **87%**, less than in Mali, a Muslim country where it is at **89%**, less than in Djibouti, a Muslim country where it is at **90%**, less than in Guinea, a Muslim country where it is at **96%** and even less than in Somalia, a Muslim country where it is at **99%**

And me, when I hear "Somalia", I think, what a sad and unfortunate association, I think of the «?great?» specialist in **vomit**, **---** and I'm talking about, a good hand of applause please, she would love it, she would get drunk on it **---** and I'm talking about I.Omar, the one who, every time she opens her mouth, **vomits** on the values and traditions of the country that welcomed her so generously, I.Omar, disgusting Somalia corrupt to the bone and "**Biden**ized", execrable creature to whom I dedicated a script to denounce her: « **DISGUSTING** »

**WOMEN'S RIGHTS AND PEACE ARE INSEPARABLE!
ONLY WOMEN CAN LEAD US TO PEACE!**

Then, having digested with difficulty the morbid picture of the most important mutilating countries and still deeply marked as I was by **LAYLA RED**, I examined her photo again but this time, it was the Human perspective, the affective perspective, the « **heart** » perspective that took over.

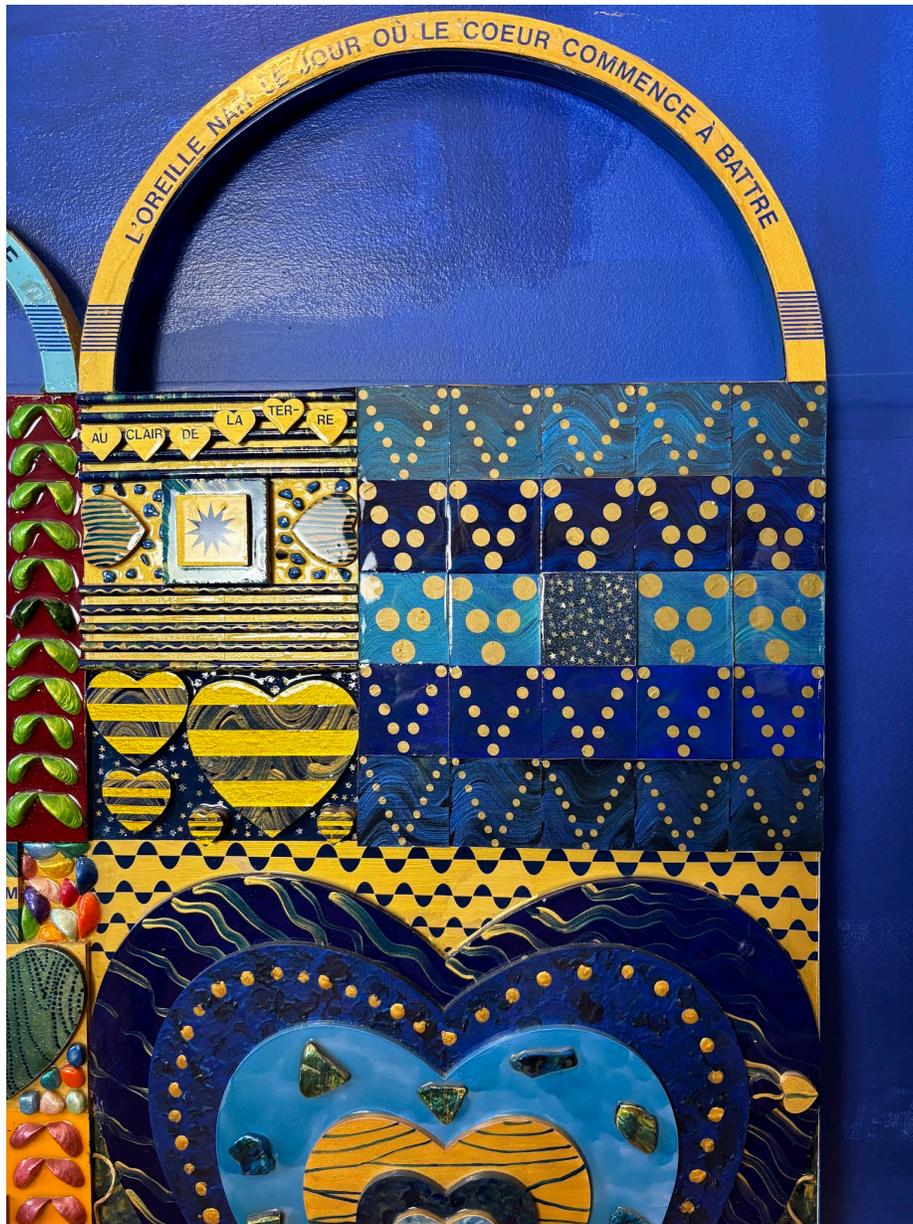

I am speaking here of the primary existential perspective, the one connected to lived experience, the one that the world of television news can never, never, account for. And I would add that when I say "heart," I cannot help but first think of the motto of the Parent Families of Quebec:

« DO IT WITH HEART - FAIRE AVEC COEUR »

<https://antonine187.com/wp-content/uploads/2025/10/ANTONINE - ARMOIRIES 2 2025 1.pdf>

.....and I can't help but also think about my discovery of a link that, to my knowledge, no one has yet seen, and which is nevertheless absolutely fundamental in Music: the one that the heart and ear maintain..

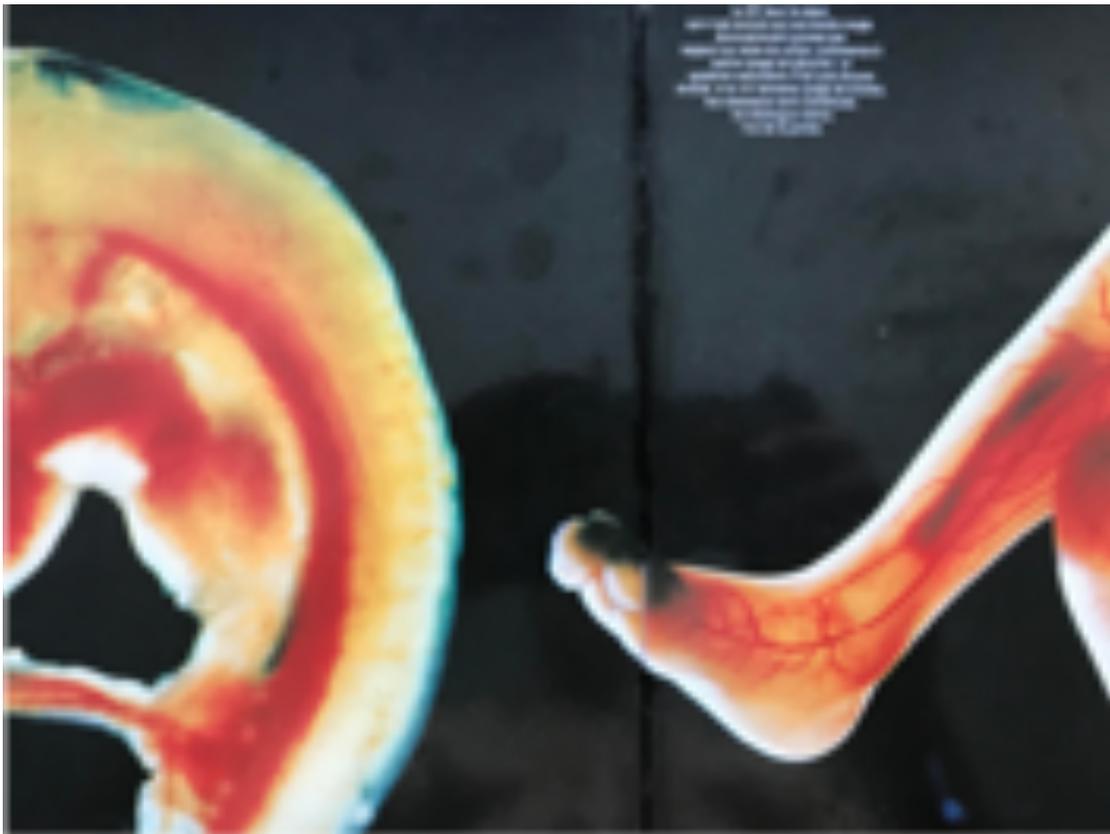

THE EAR IS BORN THE DAY THE HEART BEGINS TO BEAT
AND THAT WONDROUS DAY IS THE TWENTY-SECOND DAY

Photo below left - On the **22nd day**, the heart, which is still just a surprisingly large red ball compared to the rest of the body, **begins to beat**.

The vascular system is not yet developed. By the 16th week, the blood vessels are formed. The leg bone can even be seen.

Photo below right - Ear embryology - The **first sign of ear development** can be observed in a **22-day-old** embryo. A thickening of the superficial tissues (ectoblast) begins to invaginate towards the inside of the head to form the otic placode.

The « heart » perspective being, with my eyes fixed on **LAYLA RED**, very quickly, I saw! I saw what I had to see and I would even say that I heard what I had to hear, all through, let's say, an indefinable affective resonance and not, obviously, in the sense of acoustic resonance.

But what else? **I heard** what the gesture of her left arm suggested. **I heard** what her freshly dried tears under her left eye confirmed; **I heard** the little MUTILATED girl scream in utter revolt:

WHY WAS THIS DONE TO ME?

WOMEN'S RIGHTS AND PEACE ARE INSEPARABLE!

ONLY WOMEN CAN LEAD US TO PEACE!

That said, with numerous images to back it up and 230 MILLION mutilated women to back it up, don't even try to imagine. It's so enormous in terms of horrors, violence, soiled blades, red spurts, lost cries, stifled revolts, contempt for Life, contempt for Nature, contempt for Femininity, contempt for Beauty.

To hide woman's beauty is to despise life.

To veil a woman's beauty is to despise her life.

To hide woman's beauty is to despise freedom.

To veil a woman's beauty is to despise her freedom.
To hide woman's beauty is to despise difference.
To veil a woman's beauty is to despise her difference.
To hide woman's beauty is to despise femininity.
To veil a woman's beauty is to despise her femininity.
To hide a woman's beauty is to despise her nobility.
To hide a woman's beauty is to despise her sensuality.

To hide the beauty of woman is to despise love.

And to think that Aya Nakamura, the famous reciter, claims that "**Islam is a religion of Peace.**"

<https://www.google.com/search?client=firefox-b-e&q=aya+nakamura+chante+l%27Hymne+%C3%A0+l%27amour>

With the announcement that Aya Nakamura will sing Edith Piaf's "Hymne à l'amour" at the opening ceremony of the 2024 Olympic Games, debates have erupted....

Given that "Love and Peace are inseparable," in my opinion, this would be tantamount to saying that "Islam is a religion of love" and even better: "**THE** religion of Love," as is often proclaimed.

LOVE AND MUSIC ARE THE TWO WINGS OF THE SOUL

HECTOR BERLIOZ (1803 - 1869)

In this illuminating light, I really like this **trio** LOVE/MUSIC/SOUL which I have taken to transforming into a **quartet**, LOVE/MUSIC/**HEART**/SOUL, I cannot help but denounce what the famous neurologist and psychiatrist Boris Cyrulnik so foolishly says about LOVE, namely

????????????? LOVE IMPRISONS ??????????????

« In his new book, Boris Cyrulnik explores the history of love around the world and in different cultures. »

<https://www.journaldemontreal.com/2025/08/31/le-celebre-neuropsychiatre-francais-boris-cyrulnik-explique-que-lattachement-rend-confiant-solidaire-et-autonome-dans-son-nouveau-livre>

Personally, I find it downright insulting, abject, despicable, etc. It's as if Love with a capital "L," the kind I sang about when speaking of my mother and father, as if lasting human love had never existed, and as if Love with a capital "L" had never existed among millions of "ordinary" people in loving

relationships. Love imprisons! What poverty! What a blatant example of a man talking about what he doesn't know, what he may never have known.

LOVE LIBERATES!

Did you say « **MUTILATED** » ?

WARNING! WARNING! The following sequence contains information that may disgust, displease, shock, make you vomit, or outrage you. WE PREFER TO WARN YOU IN ADVICE..

“Female genital mutilation (FGM), or excision, refers to the total or partial removal of the external female genitalia. It is generally performed with a knife or razor blade, with or without anesthesia.”

In fact, it is almost always performed without anesthesia, partly due to an excessive and morbid adherence to this so-called sacrosanct tradition, and

partly due to the cost and unavailability of anesthesia in small villages as well as in cities.

The procedures can range from rubbing or total or partial removal of the clitoral hood to partial or total removal of the clitoris and labia, or even to the suturing of the labia to close the vulva, a procedure known as infibulation.

<https://www3.ohrc.on.ca/fr/policy-female-genital-mutilation-fgm/2-en-quoi-consiste-la-mutilation-genitale-feminine>

"FGM has no known health benefits, and among the most common complications are bleeding during the procedure, urinary tract infections, painful periods, and chronic pain.

Excision is generally performed on girls between the ages of 4 and 8. Women and girls subjected to genital mutilation routinely endure excruciating physical suffering, often compounded by emotional trauma and subsequent medical complications. »
